lefron & Harrington, Attorners for Plaintiff.

## HALF CENTURY'S GROWTH

FIFTY YEARS SINCE THE PENNSYL-VANIA ROAD WAS BUILT.

Cleveland to Have the Finest Union in the Country-Large Earnings of the Big Four.

On Dec. 10, 1852, the first Pennsylvania train was run through over the Pennsylvania Central Railroad from Philadelphia and he will be succeeded by R. R. Durbory, to Pittsburg. Some residents of Pittsburg recall the event and speak concerning its importance. The train which reached Pittsrun over the famous Portage Railroad in total length of the Portage road was 36.5 miles. On the eastern side it ascended 1,399 feet in ten miles; on the westward side 1,171 | the saloon and private dining car. feet in 26.5 miles. The State built the road at a cost of \$2,000,000, and it was one of the wonders of that day. It was not abandoned until Feb. 15, 1854, when the mountain division of the Pennsylvania was opened. In 1852, when the first trains drawn by locomotives crossed the mountains into Pittsburg, its employes numbered but a few hundred; its total pay roll in all departments was \$400,000 and its gross income \$2,-000,000. The entire rolling stock consisted of one thousand cars and fifty locomotives. In the year ending June 30, 1901, the roster of the Pennsylvania Railroad, extending from Pittsburg to New York, carried 106,000 employes and the magnificent total of its pay roll was \$75,000,000. Its gross income was \$198,626,878, while its dividends exceeded \$10,000,000. Instead of a single track there are four tracks, with steel rails weighing 100 pounds to the yard, and a total trackage east and west of 10,485 miles. The Pennsylvania now owns 4,296 locomotives, 3,088 passenger cars, not including 600 Pullman cars, and 186,828 freight cars, besides hundreds of private, stock, fruit, refrigerator and coal run over the road.

## To Build a Fine Union Station.

The plans for the new union station at the Big Four and the Pennsylvania, the Lake Shore owning 50 per cent. and the Big Four and the Pennsylvania each 25 per cent., but it is understood that the Erie and the Baltimore & Ohio have decided to go into the station, and it is thought the Wheeling & Lake Erie will be brought in. The plans for the station are unique. There will be three stories for traffic in the one building. On the level of the present tracks freight trains will pass back and forth; forty feet above, on an iron trestle, which will be above the present level of Erie street, will be the passenger tracks; running from the main waiting room of the station will be a subpassage way which will lead to the opposite side of the building. This will be about ten feet below the tracks of the passenger trains. It will have running up from it stairs leading to long platforms between the tracks. In this way a vast number of passengers can be carried without any of them coming in contact with any of the trains or being endangered the finest from the standpoint of art in the country, as well as an architectural oddity. It is said the cost of the improvement may exceed \$6,000,000.

Have Advanced Grain Rates. The article which appeared in the Journal yesterday to the effect that it had been decided not to advance grain rates on account of Western lines declining to go into the arrangement was but partially true. Inquiry of some of the Chicago lines yesterday by Indianapolis shippers who were charged the new rate on grain developed the fact that some of the Chicago roads have advanced rates on grain proper but not on flour, but the roads which adopted such a course, it is stated, have no cars to load and will not have the present month, consequently shippers are not benefited; but the impression prevails that all roads will have old contracts out of the way by Jan. 1, when there will be a general advance of grain rates.

## Walsh Extending His Lines.

General Superintendent Thompson, of John R. Walsh's Southern Indiana Railroad, on Friday at Terre Haute confirmed the report that an extension would be built from Elnora to Evansville and that work on the seventy miles of road would begin next spring. There has been much conjecture that Mr. Walsh intended to build from Terre Haute to Chicago, but Mr. Thompson says it is "believed it would be better to provide traffic from the south for the northern extension first." In the counties farther south coal mines will be opened soon. When completed the trackage of the road will be 275 miles. Because of the proposed extension 2,275 new freight cars have been ordered.

### Personal, Local and General Notes. John K. Cowen, formerly president of the Baltimore & Ohio, has returned from his trip abroad.

Inquiry.-The Erie was the first railroad to use telegraph for all train orders, and the Lackawanna soon followed. G. A. Clark, of the Illinois Central, has been appointed general manager of the Tennessee Central, succeeding L. S. Miller. \$3,690,258, an increase of \$204,894. Since July and profits, for a term not exceeding seven years, 1 its gross earnings have increased \$996,857. The Peoria & Eastern earned in the first week of this month \$54,352.60, an increase over the corresponding week of last year of

> The Big Foru lines proper earned in the first week of December \$363,886.63, an increase over the corresponding week of 1901 Several of the railroads are this month paying their employes a week earlier than usual, that they may have money for

> George W. Simmons, master mechanic of the Philadelphia & Reading at Pottsville, who was struck by a Pennsylvania railroad shifter, is dead.

Indignant denial of the reported intention of local agents of the Baltimore & Ohio to strike unless a 10 per cent, increase in pay is granted is made by representative agents Reduced one-way settlers' rates will be in effect from Feb. 15 to April 30, which will

probably force the putting in of roundtrip home-seekers' rates by competing lines | third streets; No. 4, Highland avenue and for the same period. The Pullman Company is delivering to the Baltimore & Ohio several new dining cars intended for their best trains. It is said these are among the handsomest ever

built by these works. Executive committees of the Master Mechanics' and Master Car Builders' Association met in Buffalo on Thursday and selected Mackinac as the point to hold their annual convention next June.

stirring up the managers of competing lines. Heretofore it has never been troublesome to competitors, but it has now improved its passenger service and will hereafter turn its attention to fast freight trains. It is receiving twenty-five fast mogul locomo-

The Pere Marquette is growing both ways.

Active work is to be started at once on the lake from Chicago to Buffalo. The same syndicate has acquired the Lake Erie & Detroit River Railroad, which will turned over to the Pere Marquette, and the extension from St. Thomas, Ontario, to Buffalo will be built as soon as possible. James C. Clark, president of the Mobile & Ohio, who died Dec. 9, was one of the most widely-known railroad men in this country; he was seventy-nine years of age and commenced his railroad career at an early age. While he retained his official position up to the time of his death, of ate he was unable to give it close atten-

A. K. Helton, agent of the Monon at Bloomington, was in the city yesterday. He is proud of Bloomington, the most important station, aside from terminals, on the Monon line. This remark applies to both passenger and freight traffic. Often thirty to forty cars are loaded there daily and the average through the year is twen-

The Baltimore & Ohio will expend \$1,500,-000 in improvements at terminals to meet the demand of its greatly increased triffic; \$400,000 will be spent at Holloway, O., on the Cleveland, Lorain & Wheeling Road. The plan contemplates a large freight yard and Tonic Vermifuge.

## the erection of a roundhouse and repair shops. Five hundred thousand dollars is RETAIL TRADE IS HEAVY the erection of a roundhouse and repair

Traveling passenger and freight agents are pleased over the report that the antipass agreement of the trunk lines is not likely to be renewed. Contrary to published DENTED HOLIDAY BUSINESS. reports, no action was taken in the matter

of J. B. Hutchison, general manager. Fail-

ing health induced Mr. Hutchison to resign

like amount at Fairmount.

one of the oldest employes of the Lake Shore, died at his home in Toledo early Friday morning, aged sixty-four. He became ill on Sunday from neuralgia of the heart but finished the run to Elkhart and then took another train back to Toledo Monday afternoon. On his way from the Toledo station to his home he fell twice and finally reached his residence exhausted. He left a widow. He was a member of Conductors.

J. D. Neman, formely chief clerk of the passenger department of the Southern Pacific, has been appointed general Eastern immigrant agent, with headquarters in New York. This department now has 325 agents working for Texas and Louisiana, and new men are said to be receiving appointments at the rate of twenty-five per month. The intention of the company is to have one thousand land and immigrant agents who will give their entire time to matters connected with settling of territories on the line of the Southern Pacific.

Two more railroad men of national standing have been added to the directorate of cars belonging to private companies are the Kansas City, Mexico & Oriental Railway. One is Russell Harding, general manager of the Missouri Pacific; the other, the Central Pacific. This gives the Orient a directory of leading railroad men of the nanager of the Baitin and E. Dickenson, former general manager

of the Union Pacific. Several changes will become effective on Sunday on the Pennsylvania line. The I. V. will discontinue its 5:45 p. m. Spencer accommodation and its Martinsville train, and will have four trains per day out of Indianapolis, at 7:20 a. m., 12:30 noon, 3:50 m. and 7:15 p. m. On the Louisville ivision Train 6 will leave at 3:40 a. m. five minutes earlier than now, and Train 3 will arrive from Louisville ten minutes earlier and leave for Chicago ten minutes earlier. The Madison branch train leaving at 6:15 p. m. will be discontinued and the train leaving at 3:55 will be run daily. On the Richmond division a new train will be put on, to be known as north-bound No. 11 and south-bound as No. 12. It will leave Cincinnati at 4:30 p. m., and arrive at Chicago at 1:20 p. m. No. 12 will leave Chicago at 12:01 midnight and will arrive at Cincinnati at 9 a. m.

## by passing engines. The station will be built of steel and marble and will be one of COLLECTION OF GARBAGE

CONTRACT MADE FOR IRVING-TON AND TUXEDO.

Health Department Regulations Must Be Followed-Two Firemen Suspended-City Affairs.

The Board of Public Works yesterday made a contract with the Indianapolis Desiccating Company for the collection and Tuxedo. The contract is in force Jan. 1, and will put this recently annexed territory on the same basis as the rest of the city. The amount appropriated for this contract for 1903 is \$2,500, and the company will extend its system to the area annexed for this compensation.

intervals and empty these receptacles.

The Board of Public Works witnessed a test of the Perfect Combustion smoke consumer which has been placed on the boilers at Tomlinson Hall, yesterday afternoon. The test was regarded as successful by the board. The device was put on by F. B. Caldwell and W. H. Allen, of Chicago, who equipped the sewage station plant at Englewood, which was the subject of a visit by Mayor Bookwalter and the board last month. The day was not favorable to a successful test in all particulars. The deit is not to be paid for unless it serves the as compared with the corresponding week last purpose. Those of the public wishing to The Illinois Central earned in November | examine it and see its effectiveness may do period at Tomlinson Hall.

INDICATIONS POINT TO UNPRECE-

NEW YORK, Dec. 12.-Bradstreet's, to-

holiday season, has expanded largely until now it easily occupies first position in the trade situation. Wholesale trade, except where inroads on retailers' stocks have induced reorders, is relapsing into the quiet usual at the stock-taking period. Building trade activity has been checked by climatic influences, and the distribution of lumber and building materials generally is less active. Other leading industries also note the quieting down usual at this sea-

for future prosperity. Railway earnings, swelled by heavy traffic in grain and mis-Toledo Division, No. 26, Order of Railway cotton, show an increase of 7.2 per cent. for cotton goods market, the export branch Hides and leather are dull and rather quiet. George Crawford, former vice president of Lumber is quiet, as already noted, but

avenue, from Southeastern avenue to C.,

Armed with search warrants for the four medical colleges in this city, Detectives Asch and Manning yesterday went in search' of the body of Meredith McMullen, an old soldier, whose body was stolen from the Round Hill Cemetery last summer. The warrant was issued on request of the relatives of McMullen. No trace of the body could be found.

Retail distribution, further stimulated by colder weather and the advance of the

Great basic conditions, however, make cellaneous products, offsetting smaller movements in live stock, provisions and November over the same month a year ago. Cold weather and snow have helped distribution at retail in the Northwest, and the outlook is for an unprecedented holiday distribution on the Pacific coast. Reorders of heavy goods from jobbers are still of moderate proportions at the West, but spring sales are larger than a year ago in dry goods, shoes and clothing. Holiday trade is brisk for this early stage of the season at the East. It has been a narrow market for cotton. Heavy clothing, shoes and rubber goods have moved into consumption largely during the week, and spring business is reported of flattering volume. There is but little new in the being still very dull. Woolen goods are and the mills are well employed.

prices are unimpaired. Alone among the industries, iron and and production has not yet overtaken consumption. Lower prices for coke iron at the West and weaker quotations for foreign foundry iron at the seaboard may be really regarded as readjustments of the abnormal situation previously prevailing. Heavier forms of finished material show no signs of weakness. Rather more interest is taken in pig iron, judging from the reopening of negotiations by the leading interest with the Bessemer Association for deliveries in the second half of 1903. Pig iron production at the East is improving. Wheat, including flour, exports for the week aggregate 3,761,047 bu, against 5,704,440 last week, 3,877,608 in this week last year, and 4,875,577 in 1900. Wheat exports since July 1 aggregate 120,507,495 bu, against 136,-303,381 last season and 86,008,003 in 1900. Corn exports aggregate 1,301,286 bu, against 1,151,-630 last week, 278,307 last year and 4,853,458 in 1900. For the fiscal year exports are 5,160,186 bu, against 19,794,458 last season and

## R. G. Dun on Trade.

weekly Review of Trade to-morrow will

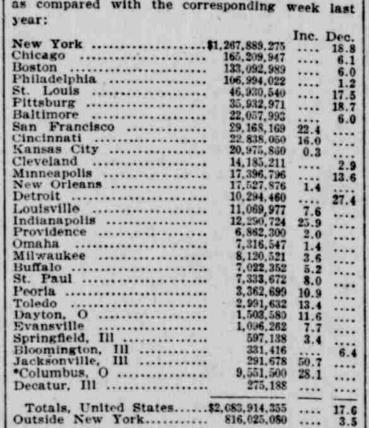

Lower temperature and holiday demands have combined to accelerate retail trade. sales largely exceeding the corresponding week in preceding years. Much postponed business is being made up and shipping departments are crowded with work, but wholesale trade has ruled quiet. Railroad earnings for the month of November exceeded last year's by 7 per cent., and those of 1900 by 20.5 per cent.

At first glance the sudden rise in furnace stocks of pig iron to 94,295 tons, compared with 71,859 tons on Nov. 1, might suggest that consumption was below production but, obviously, any accumulation that occurs is due to inadequate transportation facilities, since needs are urgent, as evidenced by the imports of Eastern steel works. The pressure is still greatest for railway supplies, with structural material next as to urgency of demand. Small supplementary orders for spring shoes are received by New England shops, but the season is practically over. Aside from activity in Union sole, the leather market has been quiet. Further recessions have occurred in domestic hides. On the other hand, foreign dry hides are firmly held, despite increased receipts. Conditions are practically unchanged as to cotton goods, a firmer volume of orders preventing accumulation at the mills. Quotations are steady and export sales of heavy brown cottons continue very small. Woolen goods for next fall have been opened at an average advance of from 5 to 10 per cent. Failures this week in the United States are 269, against 204 last week, 213 the preceding week and 273 the corresponding week last year, and in Canada, thirty,

### against fifteen last week, sixteen the preceding week and seventeen last year.

## LOCAL WHOLESALE TRADE

FULL EFFECT OF HOLIDAY CONDI-TIONS IS NOW APPARENT.

Higher Prices for Poultry Are Expected-Flour Market Is Stronger-

Very Light Cereal Arrivals.

As in years past, as the holidays draw near trade in some lines increases while in others there is a falling off. Just nov dealers in fancy notions and confectioneries are having a great run of business, the three leading confectioners shipping goods by many carloads daily. All retailers are either purchasing or have already covered their wants in this line, while churches and other large holiday buyers are in the field. Many manufacturers of confectionery are considerably behind with orders and are working night and day to catch up. All other holiday lines exhibit | Office. seasonable activity, showing that retail merchants are preparing for a very large business. The advance in refined sugar which came on Tuesday was expected, and occasioned neither surprise nor inconvenience. Brokers had prepared jobbers for it, and they had in turn notified their customers, all of them having ample time to make preparation if they desired to cover future requirements at old prices. Coffee presents no new features, the local market remaining unchanged as to quotations. Canned goods and dried fruits hold their own and are moving steadily. Salt mackerel is firm at the advanced prices ruling since the first of last week. The fruit and produce markets were very active in preparation for Saturday's trade on the part of retail merchants and market men. There is an active demand for fancy apples, and they sell at high prices. Oranges and bananas are good sellers, and oranges are improving in quality. Irish and sweet potatoes are selling readily at unchanged prices, with the supply still ample for all requirements. Cranberry sales are increasing and prices are firm. Poultry is very firm at quotations, and although the supply is more plentiful, it will not affect prices. which will be 2 or 3 cents a pound higher than last year if present conditions hold. Still, it is too early to predict what prices will be with any certainty. Flour is bright-ening up and prices are decidedly firm.

### Street stands will open on Monday with Christmas trees and other green decora-

ruled as follows:

the same prices will prevail as last year. Indianapolis Grain Market. On account of the rains of two or three days past receipts of cereals have been lighter, but fair weather will soon swell the volume, as immense quantities of grain are in condition to be shipped safely. There is a tendency to further advance prices of corn. Track bids, as reported yesterday by the secretary of the Board of Trade,

tions, and sales promise to be large, but

Wheat strong; No. 2 red, 73c track; No. 2 red, 73c on milling freight; No. 3 red, 69@ 71c track; wagon, 72c.
